### **DETAILED ACTION**

- This action is responsive to the following communication: an Amendment filed on 10/27/06.
- Claims 2, 5, 12, 16, 19, 21-28, 30, 33, 35-42, 44, 47, 49-56 have been canceled.
- Claims 1, 3, 4, 6-11, 13-15, 17-18, 20, 29, 31-32, 34, 43, 45-46, and 48 are allowed as of this communication; renumbered as claims 1-23.

### ***Response to Arguments***

Applicant's arguments, see pages 12-15, filed 10/27/06, with respect to claims 1, 7, 15, 29, and 43 have been fully considered and are persuasive. The prior art rejection under 35 U.S.C. §103(a) of claims 1, 7, 15, 29, and 43 has been withdrawn.

### ***Allowable Subject Matter***

Claims 1, 3, 4, 6-11, 13-15, 17-18, 20, 29, 31-32, 34, 43, 45-46, and 48 are allowed; renumbered as claims 1-23.

The following is an examiner's statement of reasons for allowance: The cited prior arts (US 5206735 to Gauronski et al, US 6025825 to Davidson et al, US 5239648 to Nukui et al) of record fail to teach and/or suggest receiving job information from a printer indicating that interrupt printing of an instructed print job has failed, with the job information including information that can specify an owner of the print job, determining whether the owner of the print job specified in the information included the received job information is identical to a user of the information processing apparatus based on the job information, and i) causing a display unit to display that the instructed print job has not been interrupt printed, if determined that the owner of the print job is identical to the user of the information processing apparatus, and ii) not causing the display unit to display that the instructed print job has not been interrupt printed, if determined that the owner of the print job is not identical to the user of the information processing apparatus and in combinations of other features as cited in independent claims 1, 7, 15, 29, and 43 (renumbered as claims 1, 5, 12, 16, and 20 respectively). The examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of prior arts that

Art Unit: 2625

teaches the above limitations and in combinations of other features cited in claims 1, 7, 15, 29, and 43 (renumbered as claims 1, 5, 12, 16, and 20 respectively).
